

## Comparative Effectiveness Research: Evidence, Medicine, and Policy (Hardback)

By John F Jr and Carolyn Bookout Professor of Surgical Quality and Outcomes Science Co-Director of the , Research Scientist Methodist Institute for Technology Innovation and Education Co-Director of the Ce

Oxford University Press Inc, United States, 2013. Hardback. Book Condition: New. 236 x 160 mm. Language: English . Brand New Book. For all its costs, flaws, and inequities, American health care is fundamentally rooted in a belief that treatment should be based on solid scientific research. To this end, between 2003 and 2010, three different federal laws were enacted, the most recent being the Affordable Care Act of 2010, that mandated new federal investments in a type of clinical research called comparative effectiveness research (CER) - research into what works best in medical care. Comparative Effectiveness Research: Evidence, Medicine, and Policy provides the first complete account of how - and why - the federal government decided to make CER an important feature of health reform. Despite earlier legislative uptake of policy proposals on CER, support for federal mandates took dramatic twists and turns, with eventual compromises forged amid failing bipartisan alliances, special interests, and mobilized public opinion. Based on exhaustive research and first-hand interviews, the authors examine where CER fits in the production of scientific evidence about the benefits and harms of treatments for human diseases and conditions. Their work offers sobering confirmation that contemporary American medical care falls, not...
