This report presents the results of our review of the Federal Aviation Administration's (FAA) Standard Terminal Automation Replacement System (STARS) program. Since 1996, STARS has been the centerpiece of FAA's Terminal Modernization Program to replace 1970s-era computer systems and aging controller displays. STARS provides radar and flight data to air traffic controllers at FAA's terminal air traffic control sites. Air traffic passes through three distinct control environments. At the airport, the Tower has control. After take-off, control shifts to the Terminal Radar Approach Control (TRACON). Finally, en route centers control aircraft at higher altitudes between airports. STARS was designed to provide data to TRACON sites and their associated towers.

Reviews

It is easy in read through easier to fully grasp. it had been written very completely and useful. I am pleased to let you know that here is the greatest book we have read during my personal life and could be the very best book for possibly.
-- *Miss Marge Jerde*

It is really an remarkable publication i actually have possibly study. It usually is not going to cost excessive. Its been written in an exceedingly basic way and is particularly only right after i finished reading this publication through which basically transformed me, affect the way i think.

-- *Dr. Breana O'Kon*
