Center for Lean Business Management, LLC, United States, 2015. Paperback. Book Condition: New. 216 x 140 mm. Language: English . Brand New Book ***** Print on Demand *****. Speed Leadership is a breakthrough in understanding leadership and how to improve leadership capabilities and effectiveness. This practical new approach takes a process view of leadership in preference to long-standing view of leadership based on personality, behaviors, or authenticity. Understanding leadership as processes makes clear the distinction between good leadership and bad leadership, and offers simple yet effective pathways for meaningful improvement. Leaders with an open mind, a willing heart, and genuine concern for the long-term success of an organization and its stakeholders, will find this book to be extremely helpful if not life-changing.
